EXPERIENCE

AWS Data Engineering Virtual Internship

April 2025 - June 2025

Completed AWS Data Engineering Virtual Internship involving data collection, transformation, and analysis using AWS services such as S3, Glue, Redshift, Lambda, and Athena. Gained hands-on experience in building ETL pipelines, managing large datasets, and implementing data-driven solutions for real-world scenarios.

PROJECTS

Portfolio website (January 2025 - May 2025)

Built a personal portfolio website using Angular (frontend) and MongoDB with Express (backend). Designed modules for user authentication, profile management, and project showcasing, with both public and private profile visibility controls.

Bakery E-commerce Website (September 2024 – October 2024)

Developed a dynamic bakery e-commerce platform with HTML, CSS, JavaScript (frontend) and PHP (backend). Implemented features like user authentication, product listing, add-to-cart, and order confirmation, improving user interactivity and experience.

Endless Game (September 2024 – December 2024)

Built an endless runner-style game using C, Unity, and Blender. Designed gameplay mechanics including tiles, player movement, and barriers, enhancing creativity with custom 3D models and interactive elements.

Bus Schedule System: (January 2024-March 2024)

By using the concepts of Java Swing and SQL. The objective is to create scalable software that efficiently manages and displays the bus schedule.

Hotel Management System (September 2023 – December 2023)

Implemented a hotel data management system using Object-Oriented Programming (C++), focusing on encapsulation, inheritance, and polymorphism. Designed features for room booking, customer records, and billing, ensuring efficient data handling and retrieval.

EDUCATION

2022- 2026 Bachelor's in Technology **Pimpri Chinchwad College of Engineering, Pune** (CGPA: 7.58)

2021-2022 Higher Secondary Certificate **G.H Raisoni College of Engineering, Nagpur** (Percentage: 83)

2019-2020 Secondary School Certificate **Bhavan's Bhagwandas Purohit Vidya Mandir, Nagpur** (Percentage: 95)

CERTIFICATIONS

C from Great Learning (2023)

C++ from Udemy (2023)

Java from YouTube course by Prashant Jain (2024)

Angular from Sololearn (2025)

Machine Learning from Eduskill (2025)

Python for Data Science from NPTEL (2025)

SKILLS

Technical Skills C, C++, HTML/CSS, SQL, Angular, Python
Languages Hindi, Marathi, English
Soft Skills Conflict Resolver, Problem Solver
